

Before the  
FEDERAL COMMUNICATIONS COMMISSION  
Washington, D.C. 20554

In the Matter of Improvements to the  
Low Power FM (LPFM) Radio Service

Reference: RM-11749

Date: June 11, 2015

COMMENTS  
OF  
GOOD NEIGHBOR STATION INC. LICENSEE OF WXBJ-LP,  
SALISBURY, MA

WXBJ-LP serves Salisbury, MA and most of our listeners are elderly and have contacted the station telling us that they cannot receive the station inside their homes. Many tell us that they have to hold their radios up to the windows to receive the station.

Since most radio outlets abandon listeners when they reach age 55, WXBJ-LP is a vital part of their lives providing vital information, entertainment, news, and in many cases, companionship for these listeners. WXBJ-LP provided emergency information to our elderly listeners during the record snow fall that we experienced this past winter.

Therefore, WXBJ-LP fully supports the 250 watt power increase that currently before the commission.

Respectfully Submitted,

  
\_\_\_\_\_  
Josephine Salhab  
President, Good Neighbor Station, Inc.
